VIVEK GIRI

Software Developer

+919135286892 vivekgoswamieng@gmail.com vivekkumargiri VivekGoswami Ludhiana, India

PROFESSIONAL SUMMARY

Passionate Software Developer skilled in **Java**, **JavaScript**, and **MERN stack**, with hands-on experience building real-world applications. I enjoy solving problems and creating clean, efficient, user-focused solutions.

Validated and reviewed **AI-generated code** through **testing** and **debugging** to ensure correctness, **quality**, and **maintainability**.

WORK EXPERIENCES

Software Developer Intern | Internship — Apr 2026 - Jul 2026
Zidio Development — *Bangalore*

- Developed a Java-based Banking Management System supporting **5+ core banking operations** with secure customer authentication.
- Implemented **card number and PIN-based authentication** to provide secure access to customer banking services.
- Built a user-friendly GUI for **balance inquiry, cash withdrawal, cash deposit, fast cash, and balance checking**, covering **100% of planned core transaction features**.

Technologies / Skills Used : *Java, MySQL*

Software Developer Intern | Internship — Jun 2025 - Jul 2025
DIGI-mantra — *Mohali*

- Applied Core Java concepts, including OOP, collections, exception handling, and file handling, across **4+ development areas**.
- Assisted in developing and maintaining **3+ Java-based applications** under the guidance of senior developers.
- Collaborated with the team to debug and resolve **10+ issues**, contributing to timely completion of assigned tasks in live projects.

Technologies / Skills Used : *Java, MySQL, MongoDB*

PROJECTS

Banking Management System — Apr 2026 - Jul 2026
Developer

- Developed a Java-based Banking Management System supporting **5+ core banking operations** with secure customer authentication.
- Implemented card number and PIN-based login, reducing unauthorized access risks through authenticated user sessions.
- Built GUI features for balance inquiry, cash withdrawal, cash deposit, fast cash, and balance checking, covering **100% of planned core transaction features**.

Technologies / Tools Used : *Java, Swing, NetBeans, SQL*

Employee Management System — Jan 2026 - Mar 2026
Developer

- Developed a Java-based Employee Management System supporting **4 core CRUD operations** for efficient employee record management.
- Implemented JDBC and MySQL database connectivity to store and retrieve **100+ employee records** efficiently.

Technologies / Tools Used : *Java, MySQL*

FitFusion – Fitness Platform | Github — Jun 2025 - Aug 2025
Developer

- Developed a fitness platform with secure user authentication, supporting **100+ registered users**.
- Implemented user progress tracking to monitor fitness goals and activity across **5+ key metrics**.
- Created a personalized progress-management experience, improving user engagement by **25%**.

Technologies / Tools Used : *MERN Stack, React, Express*

Zerodha – Stock Trading Platform | Github — Jan 2025 - Apr 2025
Developer

- Developed a full-stack trading platform with secure API integrations, supporting **100+ simulated trading transactions**.
- Implemented real-time portfolio tracking to monitor investment performance across **5+ key metrics**.
- Built scalable backend services that improved API response efficiency by **30%** and supported reliable trading operations.

Technologies / Tools Used : *MERN Stack, Node.js, React, MongoDB*

SKILLS

Databases :	MongoDB, MySQL
Frameworks & Libraries :	React.js, Spring Boot, Tailwind CSS
Languages :	English, Hindi
Programming Languages :	Java, JavaScript, C++
Soft Skills :	Problem Solving, Debugging, Leadership
Tools & Platforms :	Git, REST APIs, GitHub, Jira

EDUCATIONS

PCTE Group of Institute | Ludhiana — Jul 2023 - Jul 2027
Bachelor of Technology in Computer Engineering — *CGPA : 7.1 / 10*

- CGPA: **7.1 / 10**

AWARDS & ACHIEVEMENTS

- Participated in **2+** hackathons.
- Solved **350+** problems on **LeetCode**, strengthening problem-solving skills.
- Earned a **Professional Development Certificate** from **Microsoft**.
